**General**

- Introduction
- Policies Governing Request for Amendment of the LEA Application
- NCLB Planning and Submission Process

**Introduction**

The No Child Left Behind Act (NCLB) of 2001, PL 107-110, our enable schools, including public, public charter, and private, t nation's schools. In the District of Columbia, Local Education the following grants:

**Title I, Improving the Academic Achievement of the Disa** concentrations of children from low-income families;

**Title II, Part A, Teacher and Principal Training & Recruiting Fund and Title II, Part D Through Technology** provides assistance for professional strategies;

**SPOTLIGHT 1: DC Government, DC Public School System, Office of Federal Grants**

G-Tech designed, developed, and implemented the current OFGP LEA online grants application which is now in production. The system consolidates a 200 page (before data entry) paper application into hundreds of forms, reports, and user management functions. We migrated dysfunctional ASP pages into a multi-tiered java application with an oracle backend. Data is shared between various applications.

**SPOTLIGHT 2: Neptune Medical Services Management System**

G-Tech practices its dedication to research and development. We have invested people resources into designing and prototyping various web applications that cut across industries and that can be easily refit for custom use by our clients.
